

# Get Started

## Social WiFi x WhatsApp Integration

### Onboard with Meta

Make sure your Meta Business Profile is verified so you can use their WhatsApp Business solutions.

You'll need to setup billing with them too.

### Social WiFi Onboarding

Once verified, add WhatsApp as a login option to your WiFi and create any marketing messages you wish to deliver.\*

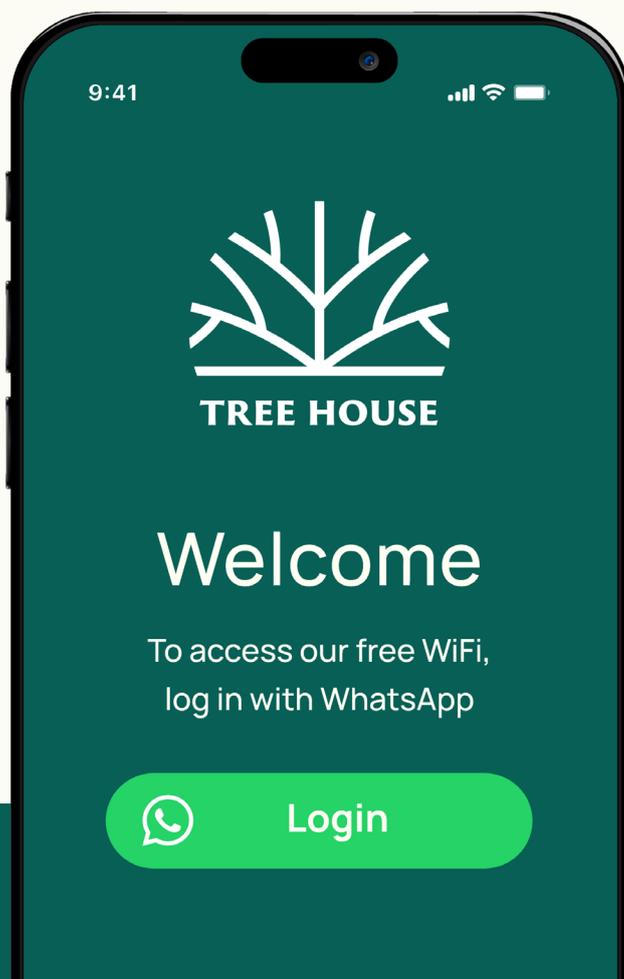

\*Marketing messaging coming in Dec 2025

### Update Your WiFi Network

Make small updates to your router or Access Points to allow access to WhatsApp.

### You're all set!

You will see WhatsApp numbers appearing in your User Data section from visitors who opted in to marketing communication.
